

Seeking
Senior Architect

Chapman Sisson Architects, founded in 1998, is a full-service Architectural firm located in Huntsville, Alabama, currently ranked the best place to live by U.S. News. The founding partners, Mike Chapman and Martin Sisson created a high performing and fun culture dedicated to serving customers and creating elegant architectural solutions.

The firm has developed an expertise in several market sectors including healthcare architecture, aviation design, church architecture, educational facilities, as well as commercial development. The firm currently employs 23 energetic, talented, and diverse individuals. One of the largest firms in North Alabama, our professional staff includes 10 Registered Architects and 3 Interior Designers.

GUIDING PRINCIPLES

Do the Right Thing

God and People First

Hit the Target

Be Good Stewards

Pursue Excellence

CSA is positioned for growth and expansion of our brand. The firm is seeking a Senior Architect to expand CSA's design expertise. This leader will be a client and public-facing professional who will be tasked with winning new projects and nurturing existing client relationships. This opportunity will allow unlimited growth potential in a collaborative, supportive environment with an established client base as a foundation for growth. This leader will be able to guide and collaborate with a very talented team of design professionals and continue a legacy of creating expectation exceeding environments for our clients.

Senior Architect

Architectural registration is required. Significant experience designing and documenting projects including coordinating consultants and team members is preferred.

Personal Characteristics

- Values that align with Company's Guiding Principles
- Visionary with excellent follow-through
- Great communicator with engaging personality
- Decisive, Driven, and Appropriately Assertive
- Personable, Confident, and Positive
- Servant Leader who can build consensus
- Analytical Thinker
- Ability to interpret what a client needs

Qualifications

- 15+ years of architectural experience is preferred
- Bachelor's or Master's degree from an accredited school of architecture
- Competent in AutoDesk Revit, Google Sketchup, Microsoft Office 365, Adobe Suite, and Bluebeam
- Strong understanding of applicable building codes and ADA guidelines, architectural building systems, and project management.

Primary Responsibilities

Tasks include but not limited to:

- Be a primary client liaison with and trusted advisor to clients
- Collaborate daily with team for project design and development
- Ensure projects are delivered on time, on budget, and with a high level of quality
- Focus on winning new business relationships, providing vision and strategy for proposals and interviews
- Lead and develop Architects and Interns

Salary and Benefits

Competitive salary with premium level benefits including 401(k) program and health insurance
