

Full Time Interior Designer

An outstanding, full-service architecture firm is seeking a full-time interior designer who is creative, motivated and willing to assist with all stages of commercial design projects. This opportunity will allow unlimited growth potential in a collaborative, supportive environment with a solid client base as a foundation for growth. The ideal candidate must have a strong understanding of the varying stages of the design process, and have a high standard for client relationships. You will be able to collaborate with a talented team of design professionals and continue a legacy of providing creative design solutions for a variety of commercial project types.

Qualifications:

- Bachelor's or master's degree from a CIDA accredited school
- 3-5 years of related experience preferred
- Experience designing and documenting projects
- Demonstrates integrity, honesty, passion, positive attitude, and drive for success
- A self-motivated team player who is willing to contribute to varying stages of the design process
- Displays good organization and ability to work in a fast-paced, collaborative environment
- An analytical thinker who enjoys solving our client's challenging problems in an elegant, beautiful way
- Preferred but not required: Competency in AutoDesk Revit, Google Sketchup, Microsoft Office 365, Adobe Suite

Responsibilities and Duties:

- Develop interior concepts for a range of project types, from start to finish. Tasks include (but not limited to): finish selections, floor patterns, millwork design, space planning, furniture selection/coordination and ceiling/lighting design
- Convey design concepts efficiently and effectively with 3D modeling and/or sketching. Present to clients and peers to refine solutions.
- Provide clear construction documentation of design concepts, including but not limited to: floor plans, finish plans, reflected ceiling plans and details, millwork elevations and details, signage schedules and restrooms plans
- Research new material solutions for unique design problems.
- Review submittals and coordinate with contractors/subs throughout the construction administration process to ensure compliance with construction documents. Conduct job site visits and assist with design solutions to problems in the field.

About Chapman Sisson Architects

At Chapman Sisson, we are passionate about creating spaces that will have a positive impact on our community for years to come. We specialize in many areas including Commercial, Education, Aviation, Healthcare and Church projects, and are committed to serving our clients well with exceptional design services. We thrive in the design process, and value the relationships that we develop with our clients along the way.

At our office, we believe that God and people come first. We seek to recruit the best team members, not only in vocation, but also in character. We strive to empower our employees as responsible architects, designers and citizens in our community, offering unlimited growth opportunities. Teamwork is vital to our success, and we value collaboration and outside-of-the-box thinking. If this sounds like a team where you would fit in, please submit your resume and portfolio to info@chapmansisson.com.
